

<b>Project Title:</b>	Needham Market Railway Station
<b>Client:</b>	Abellio Greater Anglia
<b>Date of Work:</b>	July 2015

Project description

As part of extensive works involving platform re-construction the existing subway was to be refurbished.

This required the installation of a 'Trespa' concealed fix lining system (class 0) to both stairways and lower subway.

New DDA compliant handrail systems installed to the subway, stairs and entrance way.

Project Constraints

- Public Interface
- Keeping subway operational
- Pedestrian Management
