

<b>Project Title:</b>	Upper Holloway Railway Station
<b>Client:</b>	Dyer & Butler
<b>Date of Work:</b>	Feb 2017

Project description

DDA compliant handrail system.

To each platform, install galvanised steel handrail and 'fastclamp' fittings, along with orange coated steel tube, 'not cold to touch'.

New handrail and posts were reinstated to areas where existing balustrade panels had been removed and double handrail systems were installed to stairs.

Non-slip stair treads (overlaid on new concrete stairs), with riser plates. DDA complaint grp corduroy tactile pads to top and bottom of stairs, laid in double width bands.

Project Constraints

- Ecology
- Planning
- Public Interface
- Material delivery logistics
